

# Jabra Engage 75 Stereo

## Why Jabra Engage 75 Stereo is The Best for Office Use ?

When you are running a business or are working in a call centre you need a communication device. This communication device is needed to convey your messages effectively to your business associates, colleagues, and customers. You always need a device, which provides clear and transparent audio quality. If the audio on phone is not clear, this will cause a negative impact on your business or brand. It will also make your customer ambiguous about your services. You can communicate in clear and HD voice quality by using [Jabra Engage 75 Stereo](#), which is an effective headset for office use. It has so many different, unique and important features, which make it different from others and most suitable to use at the office.

## Some Important Features of [Jabra Engage 75 Stereo](#)

### Range and Availability

These can be used at offices for making communication clear and less time-consuming. You can call from this headset at any place and can freely move from one place to other without any disturbance in voice quality. It provides a wireless connectivity range of 490 feet so that you can easily use that headset 490 feet around your office area.

## **Battery Life**

It has a full day battery life and can work for the whole day without getting charged. You always need a wireless headset, which can work efficiently with large battery timing. As in busy offices, you cannot afford to waste time in waiting for its charging.

## **Voice Canceling**

It also contains a voice-cancelling feature, which enables you to get a clear and understandable audio message from the customer or colleague. Noise cancellation is highly advanced technology, which programs the device to recognize among different noises. After recognizing the noises, this device can filter them and only convey your voice to the listener. You can easily use them at so many noisy places even at open and noisy offices where concentration is a major issue.

This can help your listener in concentrating on your voice and message regardless of the noise in your surroundings. These also cancel the disturbance generated because of caller's breathing. You can adjust the mic according to your need so that you can avoid disturbance because of breathing. There is also HD quality of voice provided in these headsets, which enable the caller and listener to just focus on your voice.

## **Busy Light**

This [Jabra Engage 75 Stereo](#) contains busy light on it. This can be said as a visual signal to make your colleagues aware of the ongoing call. This light can keep your call running without any disturbance in line with any of the colleagues. You can take that busy light as a do not disturb sign for others while you are communicating with your customer or business associate.

## **Enhanced Connectivity**

It can easily connect to 5 different devices so that it can help you in entertaining a large number of customers. As in call, centres you need to entertain and persuade a large number of customers for which this headset is so useful. These are also very effective when you are sitting on the information desk and are receiving calls from customers and employees. You can entertain more people by receiving more calls for giving information.

## **Video Calls**

These headsets have a feature of video calling on Skype. You can communicate with your customers or business colleagues Vis Skype call. These also contain high-quality audio and video transmission. This can enable you to communicate well as apart from audio, video conversation is more persuasive and effective.

## Why is it efficient for use in offices?

By looking at all the features of Jabra Engage 75 Stereo, everyone finds that headset highly suitable for use at the office. You need to make calls all the time at call centres or if you are dealing with people on reception or information desk. These are wireless headsets, which enable you to make calls comfortably in a whole working day.

In addition to its comfortability, it is also so efficient in conveying crystal clear message to the listener so that they can easily understand what you are saying. If you are dealing on information desk and gets failed in conveying information correctly then it will affect the name of your business or brand. For making your business successful you need excellent and efficient communication device.

Its range of 149 feet makes you able to move to the area of the office to communicate and as well as continuing your other work. Your movement will not affect the quality or effectiveness of sound. There is a large density of users in the office so you can make calls without interrupting the other person's call. The busy light on them can make other colleagues aware of the ongoing call so that he or she will not disturb the call.

### Conclusion
